Hi Camille,

On the Agenda for the upcoming CDRC meeting on May 9, the Project Description for Item # 1 -PLN2020-00070 says that a Negative Declaration is required for the project.

I have not received the IS/ND yet and it's not posted on the Planning Dept. website. I'm guessing that it's not yet been circulated for comment?

I would like to review it, as this is within the Seal Cove Geological Hazards Zone 2 as detailed in the William Cotton Report - a zone of questionable stability.

Thanks!

Lennie
